

TipTrak PEC Design

The best gets even better

- A** more and larger observation doors and access panels especially at critical locations
- B** shorter standard sections and fully adjustable feet for easier installation
- C** lift-out section for fast, easy maintenance
- D** cleanout drawers that don't increase the height of the infeed section
- E** reduced footprint, fits in smaller spaces
- F** heavier gauge steel sheet
- G** overlapping steel sections for better dust containment
